THE DAY'S OPERATIONS IN STOCKS.

The stock market continued dull and narrow resterday, with operations almost entirely in the interests of professional traders. Prices moved within fractional limits in the greater number of issues, exhibiting great irregularity and little certainty of tone, although final figres showed many net advances. Manhattan stock recovered the loss made on Wednesday on covering of shorts, due to the renewal of Ann reports about a possible change for the better in the affairs of the company. Manhattan stock paid 6 per cent from 1891 to 1896. In 1896 it had a deficit of \$681,904, in 1897 a deficit of \$135,351, when it paid 414 per cent The stock now pays 1 per cent quarterly, and at the current rate of earnings there is considerable doubt as to the company's ability to maintain 4 per cent payments. Passenger traffic on the elevated road was heaviest in 1892-'93. when 219,621,017 passengers were carried; but since that time competition of surface roads and poor management on the part of the elelated road company have caused a steady reduction in Manhattan's income, the decrease In the number of passengers carried in 1897, empared with those carried in 1893 being \$6,436,376, equal to \$1,821,818 in revenue. Manhattan apparently makes no effort to meet competition, and until it does so the stock must c naturally be unpopular with investors. There are various reports in circulation as to the company's "bright" future, but despite its "cheerfu" outlook, there are fewer investment holdings of the stock at present than ever before in its history. The best interests of investors call

In the railway list the Northern Pacific issues were strong features, the preferred selling up nearly 2 points on further talk of a guarantee fund to secure future dividends. Baltimore and Ohio, first assessment paid, sold higher on buying induced by the strength of the new securities (when issued) in the outside Con Coal of Md. — market. The affairs of this company are raptidly returning to a presperity basis, and, under the efficient reorganization now in progress, it to be a Rio Gr. is expected that the securities will become active features in Wall Street trading. In all respects, especially physically, the road is in better condition than at any time in its history. Reported plans for improving the bituminous coal industry helped the soft coal shares, Cleveland, Lorain and Wheeling issues being features. General Electric rose 2 per cent on favorable trade reports. The market closed firm tive features in Wall Street trading. In all

at small changes about equally distributed between net gains and losses.

Local money conditions remained unchanged, but a hardening of London discounts, and an advance in the price of bar gold were incidents pointing toward the demand abroad for limins stead to the dents pointing toward the demand abroad for gold for export.

THE DAY'S OPERATIONS IN BONDS. GOVERNMENT BONDS .- Sales, \$151,000 3s (when issued) at 104%@104%. Final quotations

December option | 62 | 62% | 61% | 62% | 221,000 WALL STREET AND EXCHANGES. OUTSIDE SECURITIES.-Market dull and irregular. Standard Oil closed at 410@411, against 406@408 on Wednesday. Last prices of other prominent issues were: Brooklyn Elevated new stock, 271/2@291/2; preferred, 56@581/2; Brooklyn City Railroad, 214@216; Standard Gas, common, 138@141; preferred, 158@163; Mutual Gas, 327@ 335; New-Amsterdam Gas, common, 295,630; preferred, 704/271; Glucose, common, 61/2/6112; preferred, 107@107%.

RUSSELL SAGE ON MANHATTAN.-Russell Sage said yesterday that he had not sold any Manhattan stock, but had bought 1,500 shares this week, and had a standing order for 1,000 more. Mr. Sage said that he did not expect the company to earn its dividend for the summer

GOLD IMPORTS.-The steamship Lahn which arrived from Europe Wednesday night, brought 3,000,000 francs consigned to Muller, Schall & Co., and 500,000 francs consigned to the National City Bank.

ANTHRACITE COAL CONDITIONS.-The September letter of the Anthracite Coal Operators' Association comments as follows on the market for that product: "The outlook for September is good by comparison with the extremely unsatisfactory conditions which have prevailed for the months past. There will undoubtedly be a stronger buying movement at tide and in the East, which, in view of the relatively small stocks being carried at tide or line points, must be filled direct from the collieries. At the same time, Western and Canadian shipments will take a considerable portion of the product, and the movement to lay in a winter supply will begin in Northern New-York and at all-rail points in the East. There is nothing, however, to warrant the hope of

marketing an unusual tonnage. There has been a slight improvement in the anthracite market during the last month, though little increase in the buying movement has been noted, and prices are practically the same as at its

beginning." BALTIMORE AND OHIO NEW STOCK .-Baltimore and Ohio new preferred stock (when issued) is selling at 68, an advance of 2 points over best preceding figures.

TALK ABOUT THE GAS COMPANIES .- In spite of numerous conferences between representatives of the People's Gas and Indiana Gas companies, it could not be learned yesterday that any decision had been reached. The stock of the former company, which had witnessed a sharp rise on Wednesday, fell off yesterday more than a point. According to one report, E. C. Benedict, of the Indiana Gas Company, had named terms satisfactory to the other side and a transfer of his holdings was soon to be

A SPECIAL MEETING .- A special meeting of the stockholders of the New-York and Harlem Railroad Company has been called for October 5, to consider the agreement with the New-York Central in relation to the refunding of the consolidated mortgage bonds.

THE TRADE IN CHICAGO. Chicago, Sept. 1 (Special).-In a small way it

was a bull day in wheat, the close % to 1/2 cent over Wednesday. There were no deliveries on September contracts. That influenced Septemher shorts. There were very large clearances, 800,000 bushels, making 2,250,000 bushels in four days from the Atlantic side alone. The seaboard reported fifty-one loads of wheat sold for export. The incident of the day was September buying by Seaverns, one of the elevator operators. Wheat was helped in a moderate way by the corn advance. It was, how ever, not a big market. The announcements were conflicting. Liverpool and the Continental markets were lower, Liverpool off %d. There was very favorable weather for movement everywhere. The Northwest receipts were more than double last year, 672 cars against 314. Arrivals at this point were light, 193 cars against 126 a year ago; but the total at all primary points was 1,014,000 bushels, compared High Grade Investment Securities, with 914,000 bushels in 1807. Samples here were fractionally higher except for No. 2 red; but the local shipping demand was slow. Round lot sales were only 35,000 bushels, and bids were not as good as yesterday. Minneapolis cash was off % cent; Duluth off % cent. Minneapolis predicted continued increasing arrivals with good weather. Broomhall reported the weathber opened at 64 cents, sold between 63% and 64% to 64% cents, and closed at 64% 41 Wall St., New York to 64% cents. December sold at 61% to 61% cents, and at 62% cents, and closed at 62% to 62% cents. May closed at 64 cents. Charters were 130,000 bushels.

Corn was irregular within a range of % cent. September opened at 30% cents, sold between 30% and 31 cents, and closed at 30% cents. December kept 14 to 14 cent over May, selling at 301/2 to 30% cents and at 311/4 cents, and closing at 31 to 31% cents. There were small deliveries, only 50,000 bushels. That helped the general tone and narrowed the spread. A crop report by Snow estimated the yield in Nebraska at only 125,000,000 bushels, the poorest since 1895. Temperatures in Kansas and Nebraska were high and the skies clear. There was a rather threatening temperature in the extreme Northwest, 33 at Calgary. The forecast for Friday relieved any anxiety, however. The promise was for merely cooler weather with showers. Receipts were 558 cars, with 630 estimated for Friday. Cables were 14d to 34d higher Samples were about steady. The shipping demand was slow, charters only 40,000 bushels. "The Price Current" said the crop had improved during the week. The market moved from puts to calls, closing at just about call figure. Early there was a lot of realizing by professionals who had bought Wednesday, Comstock and others. There were a good many Western buying orders in the market. In the last hour Gifford and Barrett were the best buyers. Seaboard clearances were 170,000 bushels. The range in oats was only 1/4 cent; the last prices the same as Wednesday's to 1/2 cent over. September closed at 20 cents; the May at 221/4 cents. Receipts were 420 cars, with 410 for Friday. Seaboard clearances were 108,000 bushels. There were no deliveries in the morning. The shipping demand was not so good to-day. Charters were 375,000 bushels.

Although there were rumors of yellow fever cases in Northern Mississippi, and although there were liberal lard deliveries, 12,000 tierces, provisions, after a rather slow day, closed a shade better than Wednesday, pork 71/2 to 10 cents over, lard and ribs 21/2 to 71/2 cents over. There were 28,000 hogs, with 22,000 estimated for Friday. Prices at the yards were steady. The pork that was delivered out went to Armour. There was a good line of October ribs bought by Baldwin-Gurney, almost 2,000,000 pounds. It was thought to be for outside account. The cash demand kept good. "The Price Current" reported the packing for the week West at 350,000 hogs, compared with 275,000 last year. Liverpool stocks showed 59,000 tierces lard, against 52,000 last month and 73,000 tierces last year. Provisions stocks at night showed 75,461 barrels of regular pork, 187,505 tierces prime lard and 32,860,000 pounds of ribs, a decrease in pork of 1,283 barrels, a decrease in lard of 16,000 tierces and a decrease

on the curb puts on September wheat closed at 64 cents; calls, 64% cents. Puts on December wheat, 62 cents; calls, 62% cents. Puts on December wheat, 62 cents; calls, 62% cents. Puts on December corn, 30% cents; calls, 31% cents.
